MEMORANDUM OF CONVERSATION WITH JIM FELLENBAUM, SAC STAFF

In the course of a conversation with Jim Fellenbaum on 22 June 1978, I asked when he felt he could act on the FY 78 reprogramming request for IC Staff. He told me that he had initially intended to handle it in the FY 1979 markup which was supposed to take place in June. With things slipping now, he appreciates the need to act on the reprogramming and would be happy to approach Senator Stennis with an approval letter. He can't do so until the authorizing committee (the SSCI) has acted. He would also prefer to know the views of the House on the reprogramming.

Jim is concerned about the possibility of getting his Chairman to act only to have the action somehow reversed or nullified by subsequent House or Senate action--which he feels would embarrass Senator Stennis.

I feel he will be quite forthcoming once the SSCI has approved the reprogramming by letter. Dan Childs felt such a letter could be issued following full committee action next week.
